SUBJECT INDEX VOLUME 67

Abbreviated Injury Scale (AIS), mortality, head injury patients, 81
Abdominal trauma
  lap belt injury, pediatric, 1278
  long bone fractures, auto *versus* pedestrian injuries, 1384
  open, enterocutaneous fistulas after laparotomy, 924
  penetrating
    futility of ultrasound in, letter, 1129, 1130
    inferior vena cava pseudoaneurysm, case report, E75
    nonoperative management, children, 1284
    standard examination for laparoscopy, 589
  peritoneal lavage, modern imaging techniques and, 330
  shotgun wound, bilateral lower limb amputation, case report, E197
  solid organ injury, pediatric, S135
  surgical emergencies, elderly patients, 983
  ultrasound, FAST use in trauma, 323
Access to care
  emergency surgical care, future of, 1
  remoteness index, trauma deaths in Western Australia, 910
Achilles tendon, neglected rupture, Endobutton fixation, 1108
Acidosis
  coagulopathy by, thrombin and fibrinogen mechanisms, 202
  testing of blood products, polytrauma model, 856
Acute Kidney Injury Network Staging System, implementation, renal dysfunction in trauma, 283
Acute renal failure (ARF). *see* Renal failure
Acute respiratory distress syndrome (ARDS)
  after severe injury, etomidate for, 45
  ethanol exposure and, intestinal epithelial cell mediation of, 296
  inflammatory biomarkers, predictive modeling and, 1182
  multiple injury patients, resuscitation before stabilization, 1013
  multiple organ failure and, fresh frozen plasma associated with, 221
  nontrauma surgical patients, 1239
Adolescents
  blunt hepatic injury, early laparoscopy for, case report, E190
  driving safety

  head injury, functionality after, 71
  motor vehicle injuries, effects of graduated driver's licensing laws, S43
  screening for high-risk behaviors, trauma service, 1288
  transitional fractures, distal tibia, 1371
Adrenal gland, traumatic hematoma, FAST, 676
Advanced Trauma Life Support (ATLS) protocols, video registration, trauma team performance, 1412
Aging, cervical spinal injury, airway compromised secondary to, 692
Airbag deployment
  frontal, severe fetal skull fracture and death, case report, E220
  three point restraint and, fetal injury, case report, E98
Air transport, telemedicine evaluation, acute burns, 358
Airway obstruction, after cervical fracture, 692
Albumin, plasma volume-expanding effects, after hemorrhage, guinea pig, 1200
Alcohol sources, high-risk behavior and, young first-time offenders, 498
Alcohol use
  acute lung injury, intestinal epithelial cell mediation of, 296
  high-risk behavior and, young first-time offenders, 498
  hunting accidents, firearm-related, Denmark, 1265
  screening, pediatric trauma caregivers, S37
  TBI and, serum ethanol as predictor of survival, 697
Ammonia, plasma, elevated with traumatic hemorrhage, 115
Amputation
  bilateral lower limb, abdominal shotgun wound leading to, case report, E197
  field teams, emergency medical service system, 1158
  upper extremity, after vehicle rollover, 410
Anatomy, maintenance of, displaced distal radial fractures, use of volar locking plates, 612
Angioembolization, blunt hepatic trauma, decision for nonoperative management, 1144
Angiography
  endovascular treatment and, multiple intracranial carotid injuries, 1327
  hepatic, trauma patients, indications and complications, 769
  mobile, trauma resuscitation room, 245
Ankle fractures, pain medication, prescribing patterns in US and the Netherlands, 160
Anterior cruciate ligament, teats, ER diagnosis, letter, 893
Antibiotics, de-escalation of therapy, VAP, effects on recurrence and mortality, letter, 1132
Anticoagulation
  blunt vertebral artery injuries, multidetector CT and, 1333
  retrievable vena cava filters, practice patterns, 1293
Anti-inflammatory resuscitation strategy, burns, inflammation, intestinal injury and, 1162
Antiplatelet therapy, blunt cerebrovascular trauma, Western Trauma Association critical decisions, 1150
Anti-*Streptococcus pneumoniae* antibodies, serum levels, after splenic preservation treatment, 557
Aortic rupture, traumatic, pediatric, endovascular management, case report, E136
Apoptosis
  experimental sepsis, hypertonic saline infusion in, 1205
  regulatory T cells, after hemorrhagic shock, 975
Arterial carbon dioxide, end-tidal carbon dioxide concordance, in severe TBI, 526
Arterial injury
  compartment syndrome, risk factors for, 1339
  endovascular treatment, 660
Arteriography
  blunt cerebrovascular trauma, screening and treatment, 1150
  conventional, extreme vascular injury, 238
  intraoperative, popliteal artery injury, 252
Aspirin, low-dose, secondary ICH after mild head injury, 521
Atrial septal defect, traumatic, mitral valve replacement after, image of trauma, 1125
Autopsy
  blunt cardiac trauma, 1259
  futility of, after trauma deaths, letter, 1129, 1130
Autoregulation
  pediatric TBI, cerebrovascular pathophysiology, S128
  static, in severe TBI, 944

Base deficit, long-term prognostic factor, severe pediatric trauma, 1272
Bioabsorbable devices, rib fractures, surgical stabilization, 596
Biomarkers
  inflammatory, lung contusion and gastric aspiration, 1182
  tympanic membrane perforation, combat blast exposure, Iraq, 210
Biomechanics
  distal radius fractures, volar fixed-angle plate, additional locking screw, 746
  liver, deceleration effects, 40
Bladder injury
  extensive wall abscess, image of trauma, 413
  in pelvic fracture, morbidity and mortality, 1033
  traumatic rupture, CT appearance, case report, E85
Blank cartridge, vole captive bolt gun, high-pressure blast injury, 617
Blast exposure/injury
  combat, tympanic membrane perforation, Iraq, 210
  epiglottic and esophageal sequelae, image of trauma, 892
  high-pressure, vole captive bolt injuries, 617
  neurotrauma, tolerance curve, 1112
Bleeding
  critical, coagulopathy of trauma shock, 381
  hemoglobin levels, reticulocyte count relations, 121
  hemostatic dressings, comparison, groin transection, swine model, 848
  traumatic hemorrhage, elevated plasma ammonia with, 115
